

Oldfield Farm Appeal

Saving Lives, Saving Families

Help GNFC and empower our community to rebuild lives and repair relationships!

Oldfield Farm is a beautiful place where women can access our recovery program to deal with their addictions. Unlike many rehabs, they can keep their young children with them whilst they complete their recovery programme and retake control of their lives.

The Farm also welcomes people in need of support to access our Skills For Life program. There's something for everyone with opportunity to learn about animal care, horticulture, forestry, woodwork and the opportunity to use their knowledge & skills as a stepping stone into further education or work.

The success of our holistic programs is evidenced by changed lives, people equipped for success in the workplace or further education and whole families are brought closer together.

We must raise £50,000 to cover our annual farm purchase payment So far £30,000 has been raised! **Please would you invest to change lives for good and help raise the remaining £20,000!**

Thank you
